

LPFM radio was so important to me when I was younger. I had my first experience with radio at summer camp when I was 14 working at an LPFM station. That experience made me want to continue to DJ and I'm now preparing to pursue a career in radio after I graduate from college. My experience with LPFM radio when I was younger helped me find the one thing I am truly passionate about and I sincerely hope that you will expand LPFM radio programs so others can have the same luck I did.
